

Term	Definition
Corporate scope	GSK will issue one report for each country showing all Transfers of Value made to HCPs / HCOs in that country by GSK and ViiV Healthcare.
Reporting date	GSK has defined two types of Transfers of Value for Reporting Date purposes: - a <i>Monetary Transfer of Value</i> is a payment of money made to an HCP/HCO by GSK either directly or through an intermediary (for example, fees for service). The Reporting Date for these Transfers of Value will be the actual payment date, irrespective of when the event happened (for example, when a consultancy fee is paid, not when the work took place). - a <i>Non-monetary Transfer of Value</i> is a benefit received from GSK either directly or through an intermediary <i>without</i> a monetary payment (a flight or a fee paid to a travel agent or events organizer, for example). The Reporting Date for these Transfers of Value will be the event date (for example, when the event took place).
Disclosure content	Healthcare Professionals (HCPs) Since June 2018, as a result of explicit and specific consent to this (as provided by the General Data Protection Regulation), the Company publishes on its web site, in the context of its cooperation with HCPs, the details of these Transfers of Value disclosed on a namely basis. Healthcare organizations (HCOs) The financial cooperation data for the period 01/01/2023 - 31/12/2023 are disclosed on a namely basis.
Value Added Tax & deductions	GSK has taken the decision to report values including VAT wherever possible due to the complexity of VAT regimes around Europe and the inconsistency of whether VAT may or may not be reimbursable depending on where the transaction took place and the country of residency of the HCP or HCO. All other taxes and deductions are included in the reported values.
Currency conversions	GSK records Transfers of Value in the currency in which the transaction took place. The report will show all values in the currency of the country in which the report is made.
HCPs employed by GSK	GSK will not report payments made to HCPs who are employed by GSK as staff members. GSK considers that it would be inappropriate to disclose an employee's salary, bonus, expenses and benefits.
Distributors	If a distributor is involved in the promotion of medicines on behalf of a Member Company in an EFPIA country and is therefore under the operational control and guidance of that Member Company, then its activities are reportable by the Member Company in that country. In such cases GSK will provide the data as a standalone distributor report (using the structure set out in Schedule 2 of the EFPIA Code), based on the distributor's own methodology and policies.
Multi-year contracts	Transfers of Value are reported on the relevant Reporting Date (payment date or event date – see above) irrespective of the duration of the contract.
